

## What can I do with a major in Nursing?

### Overview

- The St. Norbert College and Bellin College of Nursing partnership provides more choices and more opportunities for students interested in health sciences, especially those who value a liberal arts foundation and a residential environment. It combines the best Bachelor of Science in Nursing program in Wisconsin with one of the best comprehensive colleges in the Midwest.

- St. Norbert College and Bellin College of Nursing offer close personal attention, small class sizes, outstanding job placement and strong alumni satisfaction. The program encourages leadership exploration through a quality student life program that extends well beyond the classroom.

- Nursing students are enrolled in a cohort—a small group of students going through the program together—and are challenged within a liberal arts environment where they prepare for their profession and consider the ethical and moral challenges facing today's society.
