TEACHING EXPERIENCE

Student Teaching, 4th Grade, Westwood Elementary, De Pere, WI, November 2007-January 2008

- Team-taught science to a combined class size of 43; served as the leader/facilitator of each lesson while the cooperating teacher assisted with class management.
- Assembled, outlined, and instructed students on Einstein Kit *Electric Circuits*
- Adapted lessons and activities to accommodate the needs of several learning disabilities.
- Created and implemented a science unit on oceans including an interactive power point as well as several hands-on, experimental activities.
- Experimented with a teaching tool called a Smart Board; used it in several spelling and science lessons.

Student Teaching, Kindergarten, Webster Elementary, Green Bay, WI, September 2007-November 2007

- Lead a class field trip with the assistance of a substitute teacher
- Successful communication with parents via letters and verbal communication in both informal and formal situations
- Taught morning message which includes: attendance, lunch count, music and movement activities, calendar helper, weather helper, writing helper and name game
- Collaborated with cooperating teaching in effort to design a plan for reading centers; divided students into groups according to their abilities thus far; planned and implemented guidelines and activities for 4 separate reading centers; each of them was centered on one theme
- Arranged to have a parent come in and speak about their job as a wood carver during our Wood and Paper unit
- Interacted with other faculty members on a daily basis including the secretary, principal, other kindergarten teachers, aids and parent volunteers
- Made various adaptations to meet the needs of various students including: strong use of visual models, enlarged books, songs and poems to assist in learning of basic skills and teacher modeling
