

## CHEMISTRY Graduate Survey Data

### Overview of Data

Each year the Office of Career & Professional Development surveys new graduates about their post-graduation pursuits to learn whether they have secured employment, are attending graduate school, or are full-time volunteering. Graduate data is gathered through online surveys, college records, and LinkedIn. Tables below include information for the classes of 2011, 2012, 2013, 2014, 2015, and 2016.

### Chemistry Graduate Survey Data

The below results are specific to graduates who indicated they were chemistry majors when replying to the surveys.

(Note: the numbers might not add up because not all respondents completed all survey questions)

Grad Year	# of Graduates	# Grads with Data	# Employed	# Attending Grad School	Average Salary
2016	6	6	1	4	N/A
2015	8	6	1	5	N/A
2014	12	6	2	2	N/A
2013	7	2	0	1	N/A
2012	7	5	3	2	\$50,001-\$60,000
2011	8	3	1	2	Under \$10,000

### Chemistry Employment Data

Below is a sample of employers and position titles as reported by SNC graduates.

Job Title	Employer	Location of Employers
Lab Assistant	Badger Labs	Wisconsin
Process Chemist	ChemDesign	Wisconsin
Scientist	Kimberly-Clark	Wisconsin
Lab technician	Sanimax	Wisconsin
Chemist	Sigma-Aldrich	Wisconsin

### **Chemistry Graduate School Data**

Below is a sample of graduate schools and programs as reported by SNC graduates.

<b>Programs</b>	<b>Universities</b>
Chemistry	Colorado State University
Chemistry	Indiana University
Chemistry	Marquette University
Molecular Pharmacology and Experimental Therapeutics	Mayo Graduate School
Biological and biomedical sciences	Medical College of Wisconsin
Chemistry Graduate Program	Medical College of Wisconsin
Interdisciplinary Program of Biomedical Sciences	Medical College of Wisconsin
Chemistry	Purdue University
Chemistry	Sam Houston State
Forensic Science	UC Davis
Polymer Science	University of Akron
Chemistry	University of Michigan
Medicinal Biochemistry	University Of North Carolina-Greensboro
Aquatic Biology	UW Lacrosse
Geographic Information Systems Capstone Certificate Program	UW Madison
Organic Chemistry	UW Madison
Molecular & Cellular Pharmacology	UW Madison

### **All Majors Graduate Survey Data**

The results below are reflective of all graduates who completed the Graduate Survey  
(Note: the percentages might not add up to 100% as Military and Other categories are not included)

Grad Year	# of Grads	# of Responses	Response Rate	Working Full-Time	Working Part-Time	Seeking Employment	Full-Time Volunteer	Average Salary	Attending Grad School
2016	506	298	59.0%	77.0%		5.2%	1.0%	\$35,001-\$45,000	13.3%
2015	505	262	51.9%	75.9%		4.0%	3.2%	\$35,001-\$45,000	14.3%
2014	506	275	54.4%	70.6%		6.5%	2.9%	\$30,001-\$40,000	10.9%
2013	439	249	57.2%	81.1%		5.2%	1.2%	\$30,001-\$40,000	12.1%
2012	404	271	67.0%	78.2%		7.0%	1.5%	\$30,001-\$40,000	12.5%
2011	460	204	44.3%	59.3%	19.2%	3.0%	3.0%	\$30,001-\$40,000	13.7%

For questions or more detailed information please contact the Office of Career & Professional Development.

### **Chemistry Internships**

Up to 60% of employers offer full-time jobs to their interns. Internships are just about the best thing you can do for your career. Learn more at: [www.snc.edu/go/studentinternships](http://www.snc.edu/go/studentinternships). The list below provides information on where several SNC chemistry students have interned in the past.

- Enzymatic Therapy, Inc
- ThedaCare
- Schwabe North America

### **Career & Professional Development Resources**

Every student, freshman through senior, should be working with the Office of Career & Professional Development. You can turn to Career & Professional Development for help and information about:

- Choosing a major
- Exploring your interests, values, skills, and personality
- Choosing a major
- Resume/cover letter writing
- Interview preparation
- Internship search and registration
- Job search strategies
- Networking connections
- Graduate school research and applications
- Post-graduate volunteer opportunities
- Individual career counseling
