

The St. Norbert College
Office of Faculty Development
invites you to attend

Spotlight On Scholarship

A Sabbatical Report

Throughout the year we will host a series of presentations to recognize professional achievement in scholarship and to celebrate the rich diversity and talents of our colleagues.

This Spotlight on Scholarship features

Brian Pirman
Associate Professor of Art

IMAGES - A Photographic Journey

Brian will discuss his spring 2008 sabbatical. During his sabbatical, Brian drove from De Pere, Wisconsin to Santa Fe, New Mexico and back. On his way, he photographed the American landscape and what he calls "Lost Americana." This includes old signs, buildings, landscapes, etc. He stayed off the interstate and took mainly county roads. Brian stayed in Santa Fe for approximately a month. He took many photographs there while attending several photographic workshops on digital photography. After his return, Brian published a book of the photographs.

Brian will share his journey and discuss some of the more interesting photographs and experiences. He will also discuss how his book was published with *Blurb* and will give some insight to how you can publish a book using this software.

Thursday, October 16, 2008
11:00 – 11:50
Union Shield Room

The Office of Faculty Development will provide complimentary refreshments.
