

# The Office of Faculty Development Presents

Spring Semester 2011

A series of workshops dedicated to promoting an exchange of ideas about teaching and learning.

## Speaking of Chocolate, Cholera, and Vampires: The Pleasures and Pains of Honors Tutorials

Friday, February 18, 2011

3:00 - 4:30 p.m.

Union 201 BC

One of the most exciting changes we have seen in the new Honors Program is the addition of tutorials. Marcie Paul will explain the nuts and bolts of tutorials (credits, hours, registration), and then two honors students will join faculty members Laurie MacDiarmid and David Hunnicutt - who are both teaching their second tutorial this semester - in a presentation on the tutorial experience. We will leave time for conversation. Come join us as we discuss the exciting opportunities for exploration, collaboration, and research offered by these mini-courses.
