

The Office of Faculty Development
invites you to attend a

A series of workshops dedicated to promoting an
exchange of ideas about teaching and learning.

**“Promoting Undergraduate Research &
Creative Scholarship at SNC”
Friday, September 12
3:00 - 4:30 p.m.
Union Shield Room**

Five SNC faculty members participated in the Council on Undergraduate Research conference “Frontiers and Challenges in Undergraduate Research” in June 2008. Come hear our colleagues share what they have learned. This workshop will examine the many forms that undergraduate research and creative scholarship (URCS) can take across the divisions at a liberal arts institution. We will also discuss the challenges and benefits of engaging students in URCS. We aim to build on the January Faculty Development conference and expand URCS at St. Norbert College.

Larry Scheich, Associate Dean of Natural Science and
Professor of Chemistry

Melanie Brown, Director of Writing Across the Curriculum and
Assistant Professor of English

Brian Pirman, Associate Professor of Art

Jason Senjem, Assistant Professor of Business Administration

Scott Kirst, Assistant Professor of Education
