# Purpose of the camp

St. Norbert College is very pleased to offer an enrichment experience for young girls. As the mother of four daughters, I am very aware of the challenges and pressures that girls face today. This

summer camp is designed to positively impact the participants by building confidence and leadership skills, fostering healthy body image, and setting high-reaching goals.

We believe it will be a transformative experience for the girls, instilling a can-do spirit and confidence that will stay with them as they mature into young women prepared to make good choices.

SPOUSE OF THE PRESIDENT  
OF ST. NORBERT COLLEGE

# Girls Leadership and Development Summer Camp

Presented by St. Norbert College,  
Procter & Gamble  
and the Girl Scouts of the  
Northwestern Great Lakes, Inc.

A summer camp that engages  
girls in grades 1-8 in fun, exciting  
and esteem-building activities.

# Camp details

The Girls Leadership and Development Summer Camp is designed to improve the self-esteem and self-image of first- through eighth-grade girls, while building their confidence and developing leadership skills. The G.L.A.D. summer camp will be taught by Wisconsin-certified young female teachers, chosen for their ability to be great role models to girls.

G.L.A.D. summer camp will be held weekdays from Tuesday, July 6 through Friday, July 16, from 8:00 a.m. to 12:30 p.m. All camp activities will take place on the beautiful campus of St. Norbert College in De Pere. Transportation is available from both the west and east Green Bay sites of the Boys and Girls Clubs. The \$120 registration fee includes a daily snack, a camp T-shirt and an end-of-camp family celebration. A limited number of scholarships are available.

# Science and Math are fun!

During the science and math segment the girls will be involved in activities of interest that incorporate music, dance, the environment, weather and cooking. The activities ensure that learning about science and math are fun.

# Fitness

The focus of the fitness sessions will be to learn to appreciate one's body and make positive decisions in caring for oneself. Fitness activities will include Zumba, yoga, core workouts and turbo jam.

# Core

The primary focus of the camp will occur in the core sessions. Girls in grades 1-4 will learn what it takes to be leaders and identify positive role models. They will spend time looking at the differences between positive and negative self-images

and how these affect their confidence and self-esteem. Girls in the sessions for grades 5-8 will examine how other women became strong and positive role models. They will do a biography study, identifying strong women in their own lives.
