Interested in attending the NCHC annual conference in November? Have you completed or in the process of completing a research project? Creative and artistic work? Or a project related to environmental science, education, diversity, among others?

If so, please consider submitting a project to the NCHC in one of the many categories open to students who would like to participate and present at a national level.

Opportunities available to interested students: Interdisciplinary Research Panels, Student Poster Sessions for Research and Creative Works, and Student Moderators

Please contact Dr. Marcie Paul or Stacey Wanta for more information.

All proposals must be submitted to the NCHC by February 26th.
