SNC Student Visitation Policy
There is no restriction on when SNC students may visit other SNC students. Students may visit students at any time, as long as the visitation does not interfere with the privacy and study needs of roommates and other residents.

Ongoing issues related to privacy and study needs will be addressed by the residents with the help of the Resident Assistant. The RA should assess the situation and ask that the guest leave the hall. If the guest or the student is not willing to comply with the request the RA should contact Campus Safety and the Hall Director on Duty.

Non-SNC Student Visitation Policy
If a resident is having a non-SNC student visit, they must submit a Residence Hall Guest Contract to the Hall Director at least 24 hours in advance and by 12pm on Friday for weekend visits. This form establishes the following for non-SNC visitors:

1) The resident acknowledges that he/she is taking full responsibility for the guest’s actions

2) The resident will signify the number of days the guest is stay (no more than 3 nights maximum)

3) The resident will receive confirmation from their roommate (if applicable) to acknowledge that the roommate is comfortable with the guest staying

Host Responsibility
Residents are responsible for ensuring that their guests and visitors abide by College policies and procedures. Residents are accountable for the behavior of their guests and visitors, and are subject to disciplinary action if a guest or visitor violates a policy or procedure. SNC students are expected to accompany their guests while in the residence halls. Guest should not be in the building without their SNC student host or have possession of room keys/building access cards.

Visitation Violations
Students are expected to abide by all policies within the residence halls. Any student found responsible in violation of a policy is subject to revocation of visitation privileges and other sanctions outlined in The Citizen. Visitation privileges may also be revoked for other conduct-related reasons.
