

Adding a Class

Enter your course CRN's on the worksheet and submit them for processing. You may select course one a time or all at once. Any classes you select will immediately be added to your schedule unless there is a registration error and you have not secured a registration override. Courses can be changed by dropping classes using the drop-down box next to each course on your schedule.

You may search for classes using the Class Search Button on the bottom of the page. You then will receive the Class Search page allowing you to select courses for review. Once retrieved, you may select your chosen class(es) by checking the box next to the course.

CRNs can be entered one at a time or you can enter multiple CRNs at once.

After submission, courses selected will populate your schedule.

Add/Drop Classes: 000532486 Joe Testperson
Fall Semester 2007
Nov 05, 2007 01:20 pm

Use this interface to add or drop classes for the selected term. If you have already registered for the term, those classes will appear in the Class Registered Successfully section. Additional classes may be added in the Add Class table. To add a class enter the Course Reference Number (CRN) in the Add Class table. Classes may be dropped by using the options available in the Action field. If no options are listed in the Action field then the class may not be dropped. When add/drops are complete click Submit Changes. If you are unsure of which classes to add, click Class Search to review the class schedule.
