

## The *KnightLine* Login Screen

Access to *KnightLine* can be made from the Registrar website. Go to the Registration section and choose the *KnightLine* Registration & On Line Services link. You will be directed to the *KnightLine* home page. The home page has a secure access point and non-secure browsing links to the Timetables and Catalog. Choose the Enter Secure Area link and you will reach the login page.

You will be prompted for your login, which is your SNC I.D. number. Your SNC I.D. is a 9 position number starting with 000 and ending with XXXXXX which corresponds to the last 6 numbers found on your I.D. Card. Next you will have to put in your secure access password. Initially your 6 character case sensitive password is emailed to your SNC email account. Upon entering the first time, your initial password will expire and you will be required to create a new password. To enter your new password, reenter your initial password, then create a new 6 position alphanumeric case-sensitive password. This will be your secure password to access *KnightLine* in the future. Next create a "Forgot Password" question and one word case sensitive answer. Example questions might be: What is my pet's name ? What is my favorite color ? If you forget your password in the future, clicking the "Forgot Password" box will retrieve your question and a successful answer will allow you to reset your password. Repeated unsuccessful Login's will cause a system lock out and you will have to go to the *KnightLine* Reset page to have your account reactivated.

Enter your SNC I.D. Number here starting with 000 followed by the last 6 digits that are your SNC I.D.

Enter your PIN here. This is **not** where you put the Registration PIN from your advisor.

The Forgot PIN? Button will only work after you have set your question after your first login.
