

# Prepare for a **health career**

# You're needed ...

---

Thinking of a health care career? The world needs you. A recent study indicated that by 2025, in the U.S. alone, we'll face a shortage of thousands of physicians. Tens of thousands of technicians. Hundreds of thousands of nurses. Countless therapists, researchers, psychologists, dentists and other health care professionals.

At St. Norbert, we'll help you fulfill your passion to bring care, comfort and cure to the world. Taught by an exceptional faculty, in state-of-the-art facilities, through exciting and innovative programs, you'll leave here well-prepared to advance toward a professional life built on principle and compassion.

---

## **Faculty**

Ours are exceptional scholars and researchers with a deep love of teaching. Classes average 19 students; your professors will know you by name, work with you directly in the classroom and be deeply invested in your success.

## **Facilities**

Our \$40 million Gehl-Mulva Science Center was dedicated in 2015. Its labs (including a cadaver lab), equipment and other resources are the envy of other schools our size — or of any size. Gehl-Mulva also is home to the Green Bay campus of the Medical College of Wisconsin.

## **Research**

It's a virtual necessity for admission into grad programs. Here, you can do it as early as your first year. You'll exhibit your research on campus each spring — perhaps even present at academic conferences and co-author scientific papers with faculty. Equipped with such strong credentials, nearly 20 percent of our graduates pursue an advanced degree straight out of college.

## Programs of study

Common majors for health-related careers:

**Biology**

**Chemistry**

**Natural sciences**

**Psychology**

Popular pre-professional programs at SNC:

Pre-medical

Pre-veterinary

Pre-dental

Pre-pharmacy

Pre-physical therapy

Pre-chiropractic

Pre-occupational therapy

Pre-physician assistant

Nursing

---

### Pharmacy partnership

St. Norbert College has a program with the Medical College of Wisconsin that lets pharmacy-bound students shave two full years off their time to a degree. [snc.edu/go/pharmacy](https://snc.edu/go/pharmacy)

### Nursing partnership

A joint program with Bellin College leads to a nursing degree in four years or less, with preferred enrollment for St. Norbert students, and housing at SNC guaranteed for all four years. We also have a Master of Science in Nursing partnership with Chicago's Rush University Medical Center. [snc.edu/nursing](https://snc.edu/nursing)

### PT/OT/PA partnership

A partnership with Concordia University of Wisconsin gives St. Norbert graduates preferred application status in Concordia's occupational-therapy, physical-therapy and physician-assistant programs. Our acceptance rate into the PA and OT programs stands at 100 percent. [snc.edu/go/cp](https://snc.edu/go/cp)

### Master of Public Health partnership

An accelerated "4+1" partnership with the Medical College of Wisconsin gets you an in-demand M.P.H. one year faster than most.

**SNC students have gone on to postgrad programs at schools including:**

- University of Wisconsin-Madison
- Purdue University
- University of Iowa
- University of California, Davis
- University of Michigan
- Marquette University
- Medical College of Wisconsin
- University of Minnesota

Ready to give your all to a health career?  
We'll give our all to help you.
