

COMPUTER SCIENCE Graduate Survey Data

Overview of Data

Each year the Office of Career & Professional Development surveys new graduates about their post-graduation pursuits to learn whether they have secured employment, are attending graduate school, or are full-time volunteering. Graduate data is gathered through online surveys, college records, and LinkedIn. Tables below include information for the classes of 2011, 2012, 2013, 2014, 2015, 2016, and 2017.

Computer Science Graduate Survey Data

The below results are specific to graduates who indicated they were computer science majors when replying to the surveys. (Note: the numbers might not add up because not all respondents completed all survey questions)

Grad Year	# of Graduates	# Grads with Data	# Employed	# Attending Grad School	Average Salary
2017	18	16	14	1	\$60,001-\$70,000
2016	17	11	7	0	\$55,001-\$65,000
2015	13	13	13	0	\$50,001-\$60,000
2014	6	5	5	0	\$50,001-\$60,000
2013	5	4	3	1	\$40,001-\$50,000
