

Consent for Medical Treatment of a Minor

In the State of Wisconsin, a minor cannot consent to general medical care without a parent/legal guardian consent. St. Norbert College Health and Wellness Services requires a student under 18 years of age to have a signed "Consent for Treatment of a Minor" form on file prior to receiving care. Lack of consent may delay treatment. This form authorizes St. Norbert College Health & Wellness Services to provide and/or seek emergency medical treatment or other medical services the College feels the undersigned minor student may require including:

- Inpatient or outpatient medical or psychiatric care
- Urgent/Emergency Care
- Behavioral Health Services with an Advanced Provider and/or psychiatrist

This includes, but is not limited to, injury prevention, immediate first aid, physical examinations, follow up examinations, injury treatments or any other medically or behavioral health-related services. This consent will expire once the minor turns 18 years old. Please understand that once your student is 18 years old, we will need their permission to share any medical information with you.

Student's Name: (printed) _____

Student's Date of Birth: _____

By signing below, you are stating you have read and understand the document above, and are granting St. Norbert College permission to have your son/daughter treated as indicated in this document.

Parent/Guardian's Name: (printed) _____
