

Discover the convenience of OptumRx® Mail Service Saver

Mail Service Saver is a program that helps you better manage the medication you take on an ongoing basis. You can save both time and money by filling your prescriptions for maintenance medication through home delivery with OptumRx. Not only is home delivery safe and reliable, it also offers the following advantages:

Cost savings: You may pay less for your medication with a three-month supply through OptumRx.

Convenience: Get free standard shipping on medications delivered to your mailbox.

24/7 access and reminders: Speak to a pharmacist who can answer your questions any time, any day. Even set up text and email reminders to help you remember to take or refill your medications.*

How Mail Service Saver works

If you are currently taking maintenance medication on a regular basis, your pharmacy benefit plan strongly encourages you to use home delivery.

Your health plan covers only a limited number of maintenance medication refills from a retail pharmacy (call Customer Service at the member phone number on the back of your health plan ID card for the number of fills covered by your specific plan). After the allowed fills, **you must move to home delivery through OptumRx** or you will pay an increased cost at your retail pharmacy.

Whether you have a new prescription or need to transfer an existing prescription, it's easy to get started with OptumRx home delivery.

Here is how:

By online registration:

Visit **optumrx.com**, register and follow the simple step-by-step instructions. You can manage your medication online, including filling new prescriptions and transferring other prescriptions to home delivery. You can also set up text message reminders to help manage your medication schedule. Be sure to have your health plan ID card and medication bottles on hand.

By phone:

Just call the member phone number on the back of your plan ID card to talk with a customer service representative right now. It's helpful to have your plan ID card and medication bottle available. The representative can also contact your doctor directly if you need a new prescription.

By mail:

Ask your doctor for a new prescription for up to a three-month supply, plus refills for up to one year. Then go to **optumrx.com** and download the new prescription order form. Mail it to the address provided on the bottom of the form.

By fax / ePrescribe:

Ask your doctor to call **1-800-791-7658** for instructions on how to fax your prescription directly to OptumR. Or your doctor can send an electronic prescription to OptumRx.

*OptumRx provides this service at no cost. Standard message and data rates charged by your carrier may apply.
