6. Confronting Interviewing Challenges
7. Small Group Activity: Mock Interviews
8. Stages 3&4: Compile and Assess for Relevance
9. Stage 5: Drafting the Investigation Report
10. Testifying at the Hearing
ACTIVITY

Refresh & Reset

Please share at least one investigation strategy that you learned yesterday that you will begin applying right away.
Confronting Interviewing Challenges
Interviewing Challenges

Three Categories of Witnesses

- Determining if a witness is untruthful
- Witnesses who have difficulty articulating their story
Categories of Witnesses

- Willing to cooperate
- Reluctant to cooperate
- Refusal to cooperate
Reluctance, generally

• Fear of getting involved
  ➢ Includes fear of getting in trouble
  ➢ Guilty of something

• Mistrust of the University, the investigation process, the investigator

• Fear of retaliation

• Fear of not being believed

• Fear of re-traumatization (complainant)

• Fear/discomfort with subject matter
Reluctant Complainants

• May have important information connected to their own safety or campus safety

• Specific reasons:

  ➢ Uncomfortable/trauma
  ➢ Not wanting to get anyone (respondent) in trouble
  ➢ Pressure not to report
  ➢ Concern their report is “not serious enough” or their report will not meet the policy violation threshold
  ➢ Concern about their own actions (underage drinking, etc.)
  ➢ May not understand the investigation and grievance process
Reluctant Respondents

- Secured legal counsel
  - Advised not to give a statement
  - Statements given may be held against them in court
- Concern their testimony will not be believed
- May not understand the investigation and grievance process
Reluctant Witnesses

- Fear of getting involved
  - Includes fear of getting in trouble
  - Guilty of something
  - Taking sides

- Mistrust of the University, the investigation process, the investigator

- Fear of retaliation

- Fear of not being believed

- Fear of own misconduct (underage drinking, etc.)

- Fear/discomfort with subject matter
Reluctant Party/Witness Interview Preparation

• Importance of your initial contact

• Professional, respectful, and equitable for all parties involved

• Prepare for the interview- thought out- open ended questions

• Format of the interview: Zoom, Teams, or in-person – wherever they are most comfortable
Control the Room

Whomever is in the room, or not in the room can impact the interview – consider:

• How many investigators are present
• Advisor
• Non-Advisor parent or other person

Getting Parties and Witnesses Talking

- Attempt to establish a personal connection
- If this is an in-person interview – candy
- Begin with the positive
- Appreciate their time and their assistance will help establish what happened or prevent another similar incident
- Flexibility
- Most people are comfortable in familiar settings and convenient times.
- If possible, give parties and witnesses the option of where/what format and when they will be interviewed.
- Record or not record – reluctant parties/witnesses do not like to be recorded. Ask permission and explain reason for recording!
Getting Parties and Witnesses Talking (con't)

• Remind a reluctant witness this isn’t about them – it’s about improving campus safety/workplace issues.

• Remind them the decision to participate is completely theirs – you are providing them with a degree of influence and control over the process.

• Draw diagram of the room, direction, distance, access, location
  ➢ Leads to points of reference and allows for more detailed discussions
The Hard Questions

• Allow the party/witness to finish their narrative before you probe

• Say, “I want to back through this part slowly, so I understand.”

• When asking the hard questions:
  ➢ Say, “I would like to ask some hard questions, is that ok with you?”
  ➢ Explain why you are asking the question.
  ➢ Wait to confront the party/witness with adverse evidence – it may make them less willing to continue talking.
  ➢ Let the party/witness know you are attempting to figure out what doesn’t track and why.
  ➢ Don't accuse
  ➢ Be careful when asking "why?"
The Untruthful Witness

How do you know?

• What physical evidence do you have?
  ➢ Video
  ➢ Card swipe information
  ➢ Text messages with date/time stamp

Treat testimony at face value unless the evidence suggests otherwise.
Inconsistent/contradictory statements

Three "C's" to confronting inconsistent or contradictory statements

1. **Catch** the inconsistent statement (statement that is different than the statement given before or different from the physical evidence)

2. **Commit** the interviewee to the statement being made

3. **Confront** with the inconsistency or contradiction using the prior statement or physical evidence
What Not to Do

• Use the “bad cop” approach. If the party or witness is reluctant, find out why.

• Get into a conflict with a party or witness about their reluctance to participate.

• Flattery when establishing rapport – it never goes well.

• Use the 20 questions approach.

• Cut off a statement so you can move on to your next pre-arranged question.
Work with what is available

- Take what you can get
  - Phone call conversations
  - Written statement

- An effective investigator can turn reluctance into cooperation with a non-combative and empathetic approach.
QUESTIONS?
Group Activity
Mock Interviews
**ACTIVITY**

**Fact Pattern**

- Who will you interview?
- What information are you seeking from the interviewees?
- Order of interviews
- Let the interviews begin!
Stages 3 & 4
Compile and Assess the Evidence
Stage 3: Compile the Evidence

- When the investigator finishes gathering the available evidence, the investigator compiles all the information “directly related to” the allegations raised in the formal complaint into the “Investigative File.” §106.45(b)(5)(vi)

  - The **Investigative File** is provided to the parties and their advisors for review and response (must provide at least 10 days for review and response).

  - Party written responses are attached to **Investigative File** and shared with other party and their advisor.

  - **Investigative File** must be made available at the hearing to allow the parties to refer to the evidence in the file.
Stage 4: Assessing “directly related to” evidence

Determining whether the evidence is “directly related to” the allegations:

• "Directly related to" undefined within the Final Regulations.

• Evidence directly related to the allegations isn’t necessarily relevant evidence.

• Includes evidence that the school does not intend to rely on in reaching a determination.
The Evidence Collected

- Evidence “directly related” to the allegations
  - Investigative File

- Relevant evidence
  - Summarized in the Investigative Report

- Other evidence
Stage 4: Assessing the “relevant” evidence

- After the parties review and (potentially) respond to the Investigative File, the investigator drafts an Investigative Report that fairly summarizes ONLY the relevant evidence within the Investigative File.

- At least 10 days before a hearing, the parties and their advisors must receive the Investigative Report for review and response.
What is "Relevant Evidence?"

Evidence is relevant if:

(a) It has the tendency to make a fact more or less probable than it would be without the evidence; and

(b) The fact is of consequence in determining the action.

A better definition of relevance:

*Does the item of evidence tend to prove or disprove the fact (or element) sought to be proved? If yes, then the evidence is relevant.*
What is “Relevant Evidence” (con’t)

Evidence is also *relevant* if:

- Provides context surrounding the allegations.
- It serves to bolster or diminish a person’s credibility when a party or witnesses’ credibility is an issue in the case.
Evidence Not \textit{Relevant}

Evidence that is NOT \textit{relevant} or is otherwise precluded from the grievance process:

\textbf{i.} A Party's treatment records, \underline{unless} have consent. \section{106.45(b)(5)(i)}

\textbf{ii.} Information protected by a legally recognized privilege, \underline{unless} have consent. \section{106.45(b)(1)(x)}
iii. Questions or evidence about a Complainant’s sexual predisposition, or about a Complainant’s prior sexual behavior unless it meets one of two limited exceptions. §106.45(b)(6)(i)-(ii) (“Rape Shield” protections)

1. That someone other than the Respondent committed the conduct alleged by the Complainant, or

2. If the questions and evidence concern specific incidents of the Complainant’s prior sexual behavior with respect to the Respondent are offered to prove consent.
Cannot exclude *relevant* evidence

“...A recipient may not adopt a rule excluding relevant evidence because such relevant evidence may be *unduly prejudicial, concern prior bad acts, or constitute character evidence.*”

Final Regulations, Preamble, p. 834-835 (Federal Register Version)

Relevance v. Weight
Scenario 1: Assessing for evidence “relevance”

Complainant alleges that their ex-partner was physically violent with them while in Complainant’s dorm room around 10:00 p.m. on October 31, 2022.

In response to this allegation, the Respondent provides the investigator their United Airlines itinerary showing the Respondent flew home the morning of October 31. Respondent says that they went home to undergo a medical procedure. Respondent returned to campus on November 3, as reflected on the flight itinerary.

Respondent provides the November 2, 2022, discharge summary from the medical procedure.

Complainant was found responsible for an academic integrity infraction (i.e., plagiarism), last semester.
Scenario 2: Assessing for “relevance”

Complainant alleges that Respondent raped them last Saturday night in their dorm room, which caused injuries to Complainant’s genitalia. Complainant provides a picture of a spot of blood on their bedsheets. Complainant also provides a copy of her SANE report (with written consent) documenting the injuries in and outside the Complainant’s genitalia.

Investigator has visitor log for Complainant’s dorm. Complainant checked in student 1 within two hours of checking in the Respondent.

Investigator interviews student 1. Student 1 says they had consensual sex with Complainant while in the Complainant’s dorm room on Complainant’s bed.

Respondent also says that they had consensual sex with the Complainant on Complainant’s bed.
ACTIVITY

Fact Pattern

What evidence will you include in the Investigative File?
QUESTIONS?
Drafting the Investigative Report
INVESTIGATIVE REPORT
PERSONAL AND CONFIDENTIAL

I. Introduction

[University] is a recipient of federal funding and must comply with Title IX of the Higher Education Act of 1972. Title IX is a federal civil rights law that prohibits discrimination based on sex in any federally funded education program or activity. It applies to students, faculty, and staff members of the university.

[University]'s Sexual Harassment and Discrimination Policy (the "Policy") prohibits Sexual Harassment and Sex Discrimination in the university's Programs and Activities. The Policy complies with the mandates set forth under Title IX, including the May 2020 Final Regulations issued by the United States Department of Education's Office for Civil Rights. Sexual Harassment is a broad term encompassing behaviors based on sex, including (1) Quid Pro Quo Sexual Harassment, (2) Hostile Environment Sexual Harassment, (3) Sexual Assault, (4) Dating Violence, (5) Domestic Violence, and (6) Stalking.

According to Title IX and the Policy, when [University] has actual knowledge of Sexual Harassment, or allegations thereof, and upon the filing of a Formal Complaint alleging Sexual Harassment, it must respond by following the Grievance Procedure and Grievance Process outlined within the Policy.

II. The Formal Complaint

The Complainant filed a Formal Complaint against Respondent. The Formal Complaint alleges that the Respondent engaged in Sexual Harassment, specifically [name offense(s)], in violation of the [University] Sexual Harassment and Discrimination Policy.

III. Jurisdictional Statement

The [University]'s jurisdiction over a Formal Complaint attaches when the alleged Sexual Harassment occurred within a University Education Program or Activity and against a person in the United States. The Parties are both [University] students. The Complainant alleges that the Respondent sexually harassed them connected with and surrounding their participation within a university Program or Activity [name specific program or activity]. Accordingly, the Policy has jurisdiction over the Formal Complaint.

IV. Applicable Offense(s)

- List offenses and their definitions

V. Supportive Measures

- Explain supportive measures discussed and those put in place for each party.

---

1 See 2020 Title IX Regulations, 34 C.F.R. § 106.30.
Investigative Report Outline

Investigative Report should include:

• Explanation of alleged misconduct
• Applicable offenses
• Description of procedural steps taken during investigation*
• Evidence obtained
• Witnesses interviewed
• Supportive measures (whether they were/were not provided)
• Jurisdictional statement
• Summary of relevant evidence

STOP - OR - §106.45(b)(5)(vii).
Investigative report may include

- Identification of undisputed facts, corroborated facts and contested/disputed facts.
- Analysis of the relevant evidence, including a credibility analysis.
- Recommended findings or conclusions.

“The Department does not wish to prohibit the investigator from including recommended findings or conclusions in the investigative report. However, the decision-maker is under an independent obligation to objectively evaluate relevant evidence, and thus cannot simply defer to recommendations made by the investigator in the investigative process.”

Final Regulations, Preamble p. 1059 (Federal Register Version)
Summarizing – Example #1

How to summarize the relevant evidence within the Investigative Report:

1. Explain the allegations.
2. Explain the context surrounding the allegations.
3. Explain the undisputed facts relating to the allegations.
4. Explain the contested facts, or facts in dispute relating to the allegations.
5. Explain the evidence that appears to corroborate or refute the allegations.

- OR -
“Both parties agree they walked to the Complainant’s dorm room together and shortly after that engaged in sexual activity.

The Complainant claimed they were too drunk to consent to sexual activity. The Respondent insisted they had no idea the Complainant was too drunk and claims that the Complainant walked independently, without assistance, to the dorm room just before engaging in sexual activity.

The Respondent’s claim is inconsistent with the video footage from the hallway leading to the Complainant’s room. The video shows the Respondent holding the Complainant upright to assist the Complainant, who was stumbling and staggering, as they walked to the dorm room.”
RESOURCES

Sample Template for Investigative Report
Title IX Coordinator’s Review

• After the parties have reviewed and responded to the investigative report, the Title IX Coordinator will review the investigative report and written responses and determine next steps.

• Following the investigative process, formal complaints of sexual harassment may:
  
  ➢ Be dismissed entirely or just certain allegations (§106.45(b)(3)(i, ii)),

  ➢ Be resolved through the informal resolution process, or

  ➢ Proceed to the hearing process.
QUESTIONS?
Key Takeaways

• Remember to always rely on your institution’s policy and procedures as it relates to your investigative process protocol.

• Be as thorough as possible.

• Remain neutral, objective, and autonomous.

• Ensure an equitable investigative process

• Uphold party rights within the investigative process
Testifying

at the Hearing
Live-Hearing

• For postsecondary institutions, the institution’s grievance process must provide for a live hearing.

• At the live hearing, each party’s advisor must be allowed to ask the other party and any witnesses all:

  ➢ Relevant questions
  ➢ Follow-up questions
  ➢ Questions challenging credibility (i.e., cross-examination).

• Such cross-examination at the live hearing must be conducted directly, orally, and in real time by the party’s advisor of choice.

§106.45(b)(6)
Cross-Examination

Cross-examination is generally designed to:

• Allow the parties to probe/challenge the credibility, plausibility, and reliability of statements asserted.

• Give the decisionmaker(s) the opportunity to observe parties and witnesses answer questions, including those challenging credibility.

• Permit parties to pose questions intended to promote the asking party’s perspective

• Introduce additional facts and details about the alleged incident.
Cross-Examination: Leading Questions

• Attorney advisors will typically conduct cross-examination by using leading questions.

  - Leading (or closed) questions generally solicit a “yes” or “no” answer and essentially suggests the answer to the question.
Cross-Examination: Credibility Challenge

• Cross-examination is also a method of challenging credibility.

  **Question:** *In your statement to police, immediately following the incident, you said the respondent sexually assaulted you in the bathroom at the bar.*

  **Answer:** Yes.

  **Question:** *You told the investigator, a week later, that the respondent sexually assaulted you in your dorm room.*
Testifying at the Hearing

Investigators may testify at the hearing.

• Investigators may be questioned by the decision-maker(s).

• Investigators may be cross-examined by party advisors.
Investigator as Witness

The investigator as a witness:

• May testify about the procedural steps taken during the investigation.

• May be asked why the investigator did or did not interview a specific witness, pursue a specific topic during the questioning of a party or witness, or obtain certain evidence.

• May be asked about observations made during the evidence collection phase of the investigation.

• Should not be asked for opinion on outcome.
5 Tips for Testifying and Surviving Cross-Examination

1. Prepare
2. Answer the Question Asked
3. Be Positive and Confident
4. Responding to Leading Questions
5. Control Yourself
#1 – Prepare

• Review all the evidence you collected during the investigation.

• Review the procedural steps taken during the investigation.

• No need to memorize! Bring information with you to the hearing and ask to refer to it if necessary.
#2: Answer the Question Asked

- Listen carefully to the questions you are asked and answer that question. Explain yourself, if necessary.

- If you don’t understand the question, have it repeated or clarified before you answer.

- Remember: Wait to answer questions from advisors until decision-maker tells you to do so.
#3: Be Positive and Confident

- Give definite answers

- Avoid speculation by saying, “I think,” “I believe,” or “in my opinion,” if you can answer positively.

- If you don’t know, say you don’t know.

- If you don’t recall, say you don’t recall. (If there is information available to refresh your recollection, ask to review that information before answering the question.)
#4: Responding to Leading Questions

- If questions can’t be fully answered with a “yes” or “no,” it’s okay to explain your answer.

  - If advisor tries to cut you off before you finish your answer, ask the Hearing Officer to allow you to finish answering the question.
#5: Control Yourself

• Stay calm, cool, and collected

• Avoid arguing with the decision-maker(s) or advisors

• Take nothing personally

• Remain courteous but firm if your professional competency or your work product is challenged
